

THE PERFECT MATT FINISH IS NO LONGER A DARK ART

ACHIEVE EXCELLENT RESULTS QUICKER AND EASIER THAN EVER

CC6020 Chroma Matt System Clear & CC6010 Chroma Semi Matt System Clear make it easy to match every matt/semi matt finish repair entering your bodyshop – even new ultra-low gloss levels. By working faster and reducing the risk of rework, you can count on higher productivity than ever.

It's suitable for panel, multi-panel and overall repairs. Product haptics are excellent, and no elastic additive is required for plastics.

Use the Acquire spectrophotometer to find the right matt colour and ChromaWeb digital colour management software to find the applicable matt level.

01 PRODUCTIVITY: UP

This brand-new system is a reliable way of producing a high quality finish every time. Easy to use, you can count on right-first-time results and optimum productivity.

02 ENERGY SAVINGS: UP

With drying times cut by a third, this best-in-class system increases bodyshop throughput. Defined drying and flash-off times improve efficiency while saving energy.

COUNT ON THE CORRECT GLOSS LEVEL FOR ANY MATT REFINISH JOB

Application over waterborne Cromax Pro Basecoat*

	Matt Level 1 (5-10 Gloss Unit)	Matt Level 2 (11-15 Gloss Unit)	Matt Level 3 (16-25 Gloss Unit)	Matt Level 4 (26-35 Gloss Unit)	Matt Level 5 (36-50 Gloss Unit)	Matt Level 6 (51-65 Gloss Unit)
CC6020 Chroma Matt System Clear	80	65	45	40	20	0
