

# LIGHTNING SPEED SPOT REPAIRS

PS1420 UV High Productive Primer-Surfacer

AN AXALTA COATING SYSTEMS BRAND

# OPEN UP NEW BUSINESS OPPORTUNITIES BY MAKING MINOR REPAIRS MORE LUCRATIVE

With a drying time of just one minute, our innovative new UV primer-surfacer makes doing spot repairs more efficient and profitable than ever. It's fast, easy to use and means you can offer customers minor or cosmetic repairs.

Look forward to unrivaled speed, flawless adhesion, exceptional corrosion resistance, and environmental benefits with Cromax **PS1420 UV High Productive Primer-Surfacer**.

Whether you're already providing smart and small repair services or planning to extend your repair offering, this primer-surfacer is perfect for you. Suitable for a wide range of applications, it's the ideal choice for professionals seeking flexibility in their work.

## 01 LIGHTNING-FAST CURING PROCESS

Perfect for spot repairs, it's extremely fast due to 1 minute drying. That means less waiting time, higher productivity and more happy customers.

## 02 FORMULATED FOR EASE OF USE

Cut down on cleaning time and forget about pot life – just prime and go! It doesn't need a thinner or activator so it's ready to use. And with no baking required, you cut energy costs too. For more convenience, it is available as 1L can and 0,4L aerosol.

## 03 SUPERIOR CORROSION RESISTANCE

Superior adhesion properties mean paint lasts longer giving better rust and corrosion protection.

## 04 ENVIRONMENTALLY THOUGHTFUL

By eliminating CMR-chemicals, we have significantly reduced the primer-surfacer's environmental impact. And thanks to 1K technology, it reduces waste drastically.
