

CONCENTRATED TINT SYSTEMS

Whether you're refinishing passenger cars or commercial vehicles, we have the right product system for you with the right mixing machine. Equipped with a range of concentrated tints and binders, our mixing machine will produce the exact colour time after time.

Each product system comes with patented binders – direct gloss, basecoat, medium- or high-solids - and offers economical, high-coverage materials with concentrated levels of pigment for superb colour matching. Most systems also come with a comprehensive range of complementary products - from putties to clearcoats.

CROMAX PRO

The most advanced paint system for optimal quality and maximum productivity.
